

**MISSOURI COMMUNITY ASSESSMENT AND PLANNING PROCESS (MOCAPP)
VISION STATEMENT – FORM B**

In the space below, provide the Vision Statement for your community. If your community does not currently have a vision statement, you may create one. It is important to incorporate a large cross section of participation in creating the Vision Statement for the whole community. There is additional information on the process available in this manual in the section title "Visioning Session." The Vision Statement must be concise and must not exceed the space provided below.
